2022 CAMBA Kids MTB Clinic

Thursdays, July 6, 13, 20, and 27, 2022 | Hayward, WI

CAMBA is a 501c3 nonprofit organization, and is responsible for the development and management of a regional mountain bike trail system of over 130 miles, and over 200+ miles of gravel routes. The CAMBA trails lie in and around the beautiful Chequamegon-Nicolet National Forest as well as in the Bayfield and northern Sawyer County Forests – nearly a million acres in which to ride your mountain bike or your gravel bike. Trails are based in the towns of Bayfield, Cable, Hayward, Namakagon and Seeley!

CAMBA takes its responsibility as a steward of the environment very seriously and is committed to sustainable trail development – trails that will withstand years of regular use without degrading or promoting erosion. All new trails are designed and constructed to International Mountain Bike Association (IMBA) best practices.

Area cyclists have created the CAMBA trail system and mapped CAMBA gravel routes to make this vast, unique area available to everyone. We hope you enjoy the riding and join with us in preserving this resource. CAMBA encourages you to ride safely, wear a helmet and respect the environment.
